

## Commtouch Company Profile

Commtouch® (NASDAQ: CTCH) provides proven messaging and Web security technology to more than 100 security companies and service providers including 3Com, Check Point, Mirapoint, F-Secure, Openwave, Panda Security, Sendmail, Tumbleweed, and WatchGuard, for integration into their solutions. Commtouch's patented Recurrent Pattern Detection™ (RPD™) and GlobalView™ technologies are founded on a unique cloud-based approach, and work together in a comprehensive feedback loop to protect effectively in all languages and formats. Commtouch technology automatically analyzes billions of Internet transactions in real-time in its global data centers to identify new threats as they are initiated, protecting email infrastructures and enabling safe, compliant browsing. The company's expertise in building efficient, massive-scale security services has resulted in mitigating Internet threats for thousands of organizations and hundreds of millions of users in 190 countries

Relying on the key Commtouch services - Anti-Spam, Zero-Hour™ Virus Outbreak Protection, GlobalView™ Mail Reputation Services, GlobalView™ URL Filtering and GlobalView™ Zombie Intelligence – enables licensing partners to focus on their own areas of expertise, secure in the knowledge that Commtouch is always well ahead of the latest email and Web threats.

Commtouch was founded in 1991, is headquartered in Netanya, Israel, with a subsidiary in Sunnyvale, Calif.

### Industry-Leading Anti-Spam Solution

- Ideal as a core technology or additional layer
- Real-time protection from new outbreaks
- Highest spam capture rates
- Superior accuracy with almost no false positives
- Global coverage - any language, any location

### Zero-Hour™ Virus Outbreak Protection

- An essential complement to the most pressing needs of AV vendors
- Immediate protection from rapid-fire new virus outbreaks
- Unique signature-less technology blocks suspect messages hours ahead of competing technologies
- Highly scalable and easy to deploy

### GlobalView™ Mail Reputation Service

- Increases sales opportunities with new reputation-based offerings
- Enables effective competition in current markets
- Saves Bandwidth for end-customers, enhancing performance

### GlobalView™ URL Filtering

- Protects networks and users from malicious and compromised Web sites
- Supports parental and HR compliance and employee productivity by preventing browsing to restricted sites
- Identifies sites that consume an organization's bandwidth (i.e. movies, music)

### GlobalView Zombie Intelligence Service

- Protect networks and users from data theft, fraud and DDOS attacks
- Turn zombie threats into a business opportunity
- Save costs with a fast and non-invasive integration process
- Gain competitive advantage with rapid time-to-market
- Enhance solutions with rich zombie data
